Census of Canal Zone Second Series Covers

(Last updated October 12, 2020)

The awaited United States stamps overprinted "CANAL ZONE / PANAMA" reading up were shipped from Washington on July 2 and arrived in the Zone on **July 13, 1904**. A total of ten million stamps with a face value of $390,000 was shipped; at the rate of use then current, these would have lasted for several decades.

A controversy between the United States and Republic of Panama was raging concerning customs and ports, and also postal rates. Letters from the Canal Zone to the United States were treated at the 2¢ domestic rate, whereas those from Panama to the United States were at the 5¢ U.P.U. rate. Thus 3¢ per letter could be saved by crossing a street and mailing from a Zone post office. This situation was severely detrimental to the Panama revenue. In an attempt to settle the differences between the two countries, President Roosevelt sent William Howard Taft to the Isthmus to work out an agreement covering all the points including the postal rates. On December 3, 1904, Roosevelt issued an Executive Order which dealt in part with the postal rates, and among other details provided that Republic of Panama stamps overprinted for the Canal Zone were to be used in the Zone, and these would be purchased from the Republic at 40% of face value; also mail from Panama to the United States would be handled at the United States domestic rate.

The Taft Agreement effectively ended the sale and use of the Second 1904 Issue. As of the close of business on **December 11, 1904**, this series was withdrawn from sale. Of the enormous quantity shipped, fewer than 150,000 stamps, with a face value of less than $4,300 were sold. The remaining quantities were burned on January 2-3, 1906.
